Q.1.A. Read the following Passage and answer the question set below it:

Life isn't that simple. Throughout our journey in life we might face numerous challenges. The difference between people who succeed in life and those who don't is not the absence of challenges but their ability to face challenges correctly. A strong and resilient person will get hit by setbacks and problems just like everyone else, but he will stand up and fight again.

Negative people make everything a problem. Succumbing to negative emotional states creates nothing but more negative reactions such as jealousy, hatred, blame, fear and depression. That helps neither us, the situation, nor the people around us. Every challenge contains a blessing in disguise. Learn to accept challenges as an opportunity to become stronger and more empowered. Those who are afraid of challenges and run away from them do not grow and progress.

No one gets it right every time. Do not be disheartened by failure. Accept success and failure as part of life's journey. Seek help if necessary. Make yourself strong, hopeful, courageous and enterprising enough to face trials and respond positively to them. Overcome challenges and grow strong in mind and body.
